

# AQUA GP

## General Purpose Cleaner

### PRODUCT DESCRIPTION & BENEFITS

**Aqua GP** is a reliable, synthetic detergent that can cut through the soils most frequently found in food handling areas, such as grease, protein and sticky carbohydrates. This highly concentrated cleaner has unique penetrating action that emulsifies soils and holds them in suspension until wiped up. Rinses freely, leaving the surface clean and film-free. Very economical! Rinses easily, but for damp mopping unwaxed/unfinished floors such as quarry tile, rinsing is not necessary. This synthetic cleaner does not leave soap scum or hard water film.
