

EXTRACTION RINSE

Encapsulating Extraction Carpet Cleaner

PRODUCT DESCRIPTION & BENEFITS

Extraction Rinse attacks all soils commonly found in carpeting. Its unique formula emulsifies them, and then using the latest technology, encapsulates the soil for easy removal. Extraction Rinse is safe on stain resistant carpets and actually replenishes stain resistant properties. As a bonus, this product eliminates the need for a defoamer, even on carpeting with residue from previous shampoos. Complies with carpet manufacturer's guidelines for "Wet Side" cleaning.

BENEFITS:

- Formulated for Fast and Effective Cleaning
- Will Not Remove Stain Resistant Properties
- Suitable for Wool Carpet and Upholstery
- Fresh Fragrance
- Low Foam

DETAILED USAGE & INSTRUCTIONS

As with all cleaning products, always check for colorfastness on carpeting and upholstery in an inconspicuous area before using this product. It is recommended that protective gloves and eyewear be worn when using this product.

DIRECTIONS: Vacuum carpet thoroughly to remove as much loose soil as possible. Apply SafeGuard Traffic Lane Cleaner to all high traffic areas and soiled spots with a pump up sprayer or other application device. For best results, allow SafeGuard Traffic Lane Cleaner to remain on carpet between 5-10 minutes before extracting. Dilute Extraction Rinse at the rate of 2-4 ounces per gallon of hot water, depending on soil conditions. Add to solution tank of carpet extraction machine. Use carpet extraction machine making sure you overlap each pass and vacuum up as much liquid as possible. After carpet is completely dry, vacuum thoroughly and replace furniture. If furniture must be replaced before carpet is dry, place coasters or foil squares under any part of furniture that will touch wet carpet.

Refer to the product label or contact a Cynamic Chemical Co. professional for additional usage instructions.

TECHNICAL SPECIFICATIONS
