

GENERAL SPOTTER

No Rinse Carpet Spotter

PRODUCT DESCRIPTION & BENEFITS

GENERAL SPOTTER should be used as a no-rinse carpet spotter. This allows the encapsulation of the stain to be vacuumed away while the soil repelling properties remain. This product is effective on both water and petroleum based spots and spills. Complies with carpet manufacturer's guidelines for "Wet Side" cleaning.

DETAILED USAGE & INSTRUCTIONS

As with all cleaning products, always check for colorfastness on carpeting and upholstery in an inconspicuous area before using these products.

DIRECTIONS:

1. Scrape any crusted material and vacuum.
2. Pour a liberal amount of product on the spot and allow 1-2 minutes for product to dwell. (Do Not Overwet)
3. Agitate the spot with a blunt object or tamp with a soft brush to break up any crusted material. Work from the outer edge to the center of the spot. Blot with clean towel. Do not rub, as this may cause the spot to spread further or distort carpet fiber. Residue from spot should be absorbed on to towel material. (If spot does not transfer into cloth, consult with your carpet care representative).
4. Do not rinse

Refer to the product label or contact a Cynamic Chemical Co. professional for additional usage instructions.

TECHNICAL SPECIFICATIONS

Appearance / ColorClear Amber
 OdorFresh
 Shelf Life2 years
 Solubility in WaterComplete
 FoamingNone
 pH8.0 ± 0.005
