

LIQUID ALUMA BRITE

Non Chlorinated Machine Detergent

PRODUCT DESCRIPTION & BENEFITS

From plasticware to fine china LIQUID ALUMA BRITE does it all. This versatile liquid warewash detergent has few of the limitations usually associated with machine dishwash liquids. LIQUID ALUMA BRITE gets its cleaning power from inorganic alkaline builders. This special formulation also works exceptionally well in hard water. When used over a prolonged period of time, LIQUID ALUMA BRITE prevents build-up of hard water scale on delicate machine parts. Using LIQUID ALUMA BRITE is easy, too. The detergent is dispensed directly from the shipping container into the machine and it's ready to wash dishes the instant the machine kicks into operation.

DETAILED USAGE & INSTRUCTIONS

Open shipping container by removing cap or bung. Check foot strainer and feed tube. Clean if necessary. Insert feed tube into bottom of container. Cycle machine to ensure proper feeding. Detergent control will maintain proper concentration.

RECOMMENDED USES: Fine China, Silver, Aluminum, Copper, Stainless Steel, Pots/Pans, Iron

Refer to the product label or contact a Cynamic Chemical Co. professional for additional usage instructions.

TECHNICAL SPECIFICATIONS

Appearance / ColorRed
Odor.....Odorless
Shelf Life2 years
Solubility in WaterComplete
FoamingNone
pH13.5 ± 0.5
Specific Gravity1.096 ± 0.005
Storage Temperature.....45-110 °F

FEATURES & BENEFITS

- Instant Action Suds
- Dissolves Dried-On, Cooked-On Soils Fast
- Rinses Thoroughly For Spotless Drain Drying
- Super Economy At Use Levels
