

SWISH

High Efficiency Laundry Detergent

PRODUCT DESCRIPTION & BENEFITS

SWISH represents the latest in the development of liquid surfactants. Regular use of this surfactant is good for your laundry and equipment. It rinses well and will not build up on fibers. Used as directed, colors stay bright and whites will not gray. **SWISH** is designed for use as one agent in a 3 or 4 item liquid feed system in commercial laundry applications. In combination with a destainer, neutralizer, softener and sour, it yields remarkable performance on many fabrics. **SWISH** is also a concentrated laundry detergent for use in high-efficiency washing machines.

DETAILED USAGE & INSTRUCTIONS

DIRECTIONS: Open container carefully. Remove pickup straw from empty container and insert into new container being careful not to drip any product on skin or clothing. If air pockets are present in tubing leading from container to dispenser or from dispenser to laundry machine prime dispenser to completely fill tubing. Dispenser is programmed to add **SWISH** to correct machine cycle in the proper amount. See your **DALEY** representative for specific laundry handling.

HE LAUNDRY MACHINES: Load clothing into the machine and add the recommended amount of **SWISH** into dispenser drawer. Close drawer carefully. Turn on the washing machine, select the appropriate cycle and start the washer. Allow washer to run the full length of the cycle and remove clothing when finished. (Leaving clothing in the washer too long may encourage mold growth in the washer rim).

Refer to the product label or contact a Cynamic Chemical Co. professional for additional usage instructions.

TECHNICAL SPECIFICATIONS

Appearance / Color	Blue
Odor	Floral
Shelf Life	2 years
Solubility in Water	Complete
Foaming	None
pH	8.0 ± 0.05
Specific Gravity	1.086 ± 0.005
Storage Temperature.....	45-110 °F

FEATURES & BENEFITS

- The Highest Concentration
- Versatile; May Be Used as a Pre-Soak or Pretreat
- Contains Optical Brighteners
- Compatible With Chlorine or Oxygen Bleach
- May Be Used With Cold, Warm, or Hot Water
