

SYN-LUBE

Conveyor Lubricant

PRODUCT DESCRIPTION & BENEFITS

SYN LUBE is the ultimate in chain lubrication. It provides superior slickness at all line speeds for bottles, cans and cases. Conveyor lines start up instantly without manual lubricating, and even heavy loads travel trouble free; no production downtime due to bottles toppling at transfer points. Syn Lube is a true highly concentrated lubricant that is formulated to meet the requirements for USDA authorization under categories A1, E1 and H2. Economical usage is achieved with an automatic dispensing pump system such as Crown, Dema, etc. Simply install the pump unit, connect to Syn Lube pail or tank and water line. Incoming water is automatically proportioned with an accurately measured amount of Syn Lube, then it discharges onto the line at selected lubrication points. The product to water ratio may be adjusted for maximum performance and economy.

DETAILED USAGE & INSTRUCTIONS

This 100% synthetic formula cleans as it lubricates to prevent soil, mold, or slime build-up on the line. It is low foaming. Consult your Daley food and beverage specialist for recommended use dilutions and dispensing instructions.

RECOMMENDED USES: Dairies, Breweries, Canneries, Food Processors, Large Dishwashers

Refer to the product label or contact a Cynamic Chemical Co. professional for additional usage instructions.

TECHNICAL SPECIFICATIONS

Appearance / Color	Opal
Odor	Neutral
Shelf Life	2 years
Solubility in Water	Complete
Foaming	None
pH	10.7 ± 0.5
Specific Gravity	1.0428 ± 0.005
Storage Temperature.....	45-110 °F

FEATURES & BENEFITS

- Lubricates and Reduces Chain Wear
- Eliminates Downtime
